

High-Voltage, Self-Powered, Half-Bridge Motor Driver with Integrated Device Protection and System Monitoring

Applications

• Single and multi-phase high-voltage PM and BLDC motor drives in:

HVAC fans
Gas boiler combustion fans

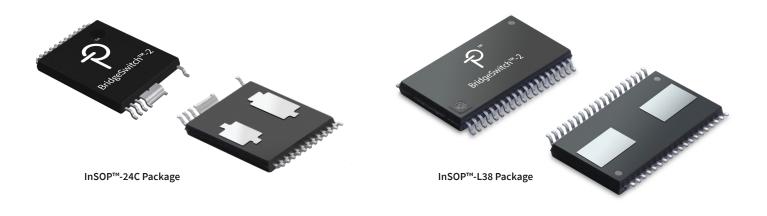

- Refrigerator compressor – Washing machine drums and pumps

Fluid pumpsCeiling fans

- Industrial pumps and motors

Product Family

Part Number	FREDFET DC Output Current	Continuous Phase RMS Current
BRD2x60C	1.0 A	0.22 A
BRD2x61C	1.7 A	0.50 A
BRD2x63C	3.0 A	0.75 A
BRD2x65C	5.5 A	1.00 A
BRD2x67C	11.5 A	1.33 A
BRD2x67WB	11.5 A	1.45 A
BRD2x67WT	11.5 A	2.00 A
BRD2x69WB	22.0 A	2.00 A
BRD2x69WT	22.0 A	2.80 A

Design Support

Data Sheet BridgeSwitch-2 data sheet (www.power.com/bridgeswitch-2-data-sheet)

Design Example 70 W single-phase inverter using BridgeSwitch-2 for fan application

(RDK-872)(www.power.com/rdk-872)

Design Example 150 W three-phase, shuntless FOC design with Integrated phase current (IPH) BridgeSwitch-2

(RDR-974)(www.power.com/rdr-974)
