

PowiGaN™ Technology

- World's First 2200 V GaN
 - Extends GaN into New High-Voltage Applications
- Reduces Energy Loss by up to 33%
- 750, 800, 900, 1250, 1700 and 2200 V Options

Product Families Featuring PowiGaN Technology

High-Efficiency Flyback

InnoSwitch™3-EP
InnoSwitch3-CP
InnoSwitch4-CZ & ClampZero™
InnoSwitch4-QR
TOPSwitchGaN

Programmable Power

InnoSwitch3-Pro
InnoSwitch4-Pro
InnoSwitch5-Pro
InnoSwitch3-PD

Lighting

LYTSwitch™-6

powiGaN™

Automotive Power

InnoSwitch3-AQ

Multi-Output Power

InnoSwitch3-MX
InnoMux™2-EP
InnoMux2-BL

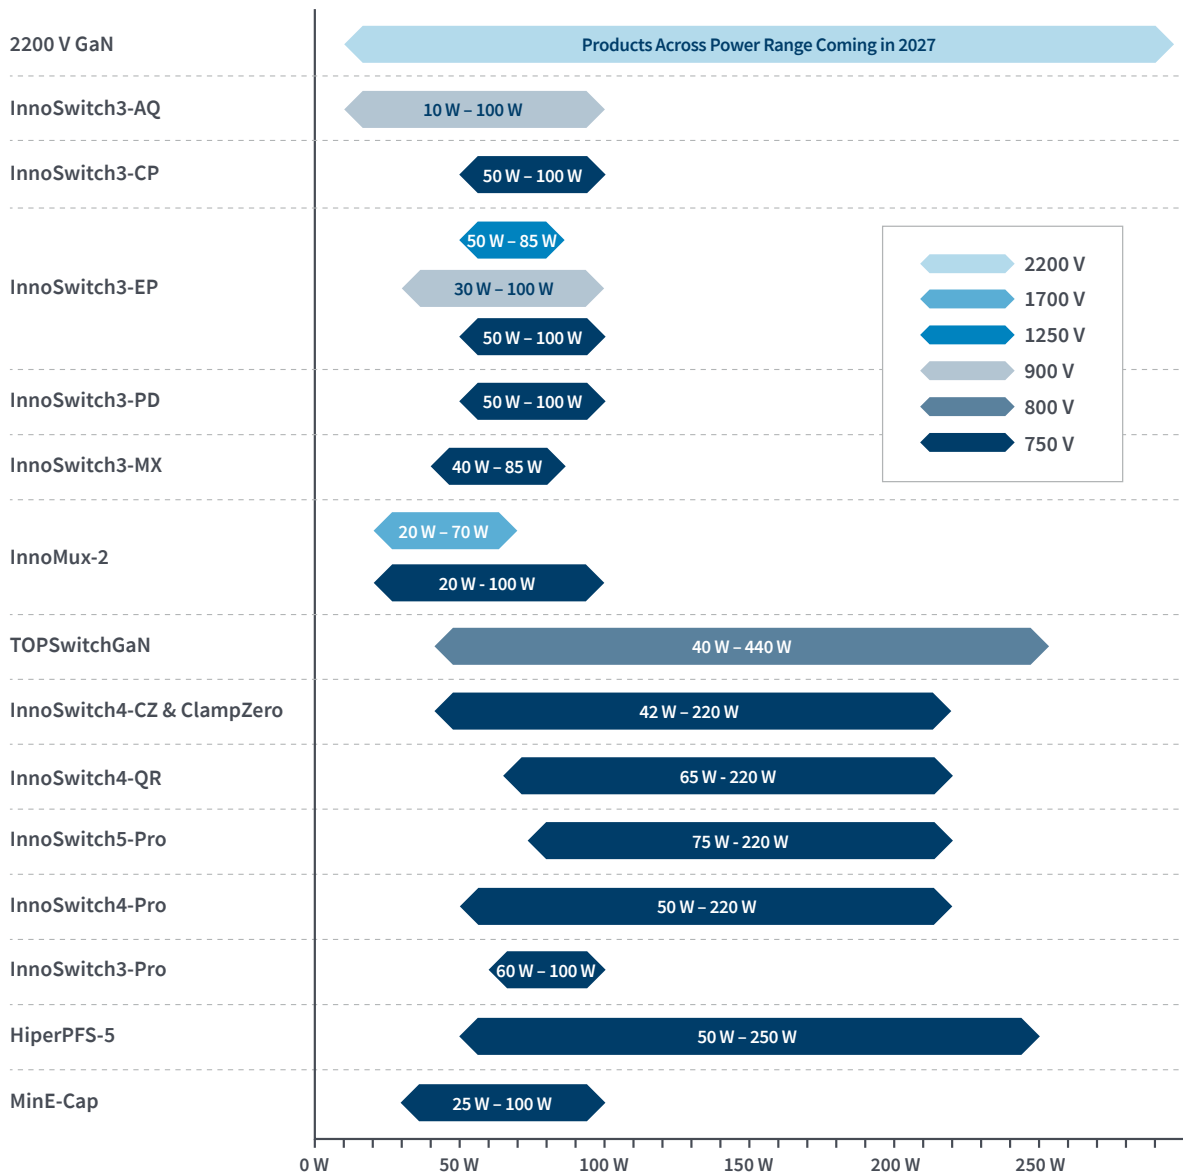

Reducing Power Supply Size

MinE-CAP™

Power Factor Correction

HiperPFS™-5

Output Power

Design Support

Design Tool	PI Expert and PIXLS: Online support tools for creating production-ready designs (www.power.com/design-support/pi-expert)
Design Tool	Product Selector: Pick the right PI part family for your design (www.power.com/solutions/products?segment=ac-dc-conversion)
Online Support	Power Pros: Ask a power expert – available 24 hours a day, 6 days per week (www.power.com/powerpros)
Design Example	Design example reports and reference design kits (www.power.com/solutions/designs?segment=ac-dc-conversion&segment_id=265371)
