Waste Electrical and Electronic Equipment Declaration

Directive 2012/19/EU Effective on February 14, 2014

The WEEE Directive aims to raise the level of recycling of electrical and electronic equipment (EEE).

Power Integrations does not manufacture any of the products that are shipped to retail/end use customers but is committed to preserve, protect and improve the quality of the environment, to protect human health and to utilize natural resources prudently and rationally.

Power Integrations requires all its manufacturing partners to comply with all applicable laws and regulations regarding prohibition or restriction of specific substances/minerals, including the recycling program.

Power Integrations has a licensed waste company that recycles computers and products. All manufacturing partners, likewise, recycle the products.

A handwritten signature in black ink, appearing to read "R. Petrakian".
